“ It's a quadruple whammy: penetration, G-spot and clitoral stimulation, and a buzz for you too.”

Unless you're Pamela and Tommy, chances are your sex life could use a little spicing up every now and then. Not to say you're lacking skills, but ramping it up to the next level will take you from sparklers to full-blown fireworks (or from 50mph to 100). If you've already had sex outdoors, in your parents' bedroom and you've done a little role play, it may be time for something else: [sex toys](#). You may think sex toys are the playthings of the solo explorers or wild, kinky types who swing from the chandeliers, but that's where you would be mistaken. Any couple with a little sense of adventure can incorporate some sex-toy action into their repertoire.

Vibrators

Before you freak out over the idea of bringing a vibrator into the bedroom, rest assured that the vast majority of women would much rather have a real-life man than a rubber toy. Vibrators are merely an addition to an already fun activity, the icing on a cupcake. Unlike traditional phallic-shaped vibrators, the uniquely structured [We Vibe](#) allows both partners to enjoy some good vibrations at the same time. The "C" shape Vibe has one end that fits inside the vagina to massage the [G-spot](#), while the other end stimulates the clitoris. After she starts getting excited, you can penetrate her while she's wearing the Vibe for a feeling that will make both of you blast off. With you inside her, not only will your penis push the vibrator closer to her G-spot, but you'll get to feel the sizzling vibrations too. It's a quadruple whammy: penetration, G-spot and clitoral stimulation, and a buzz for you too.

Cock Rings

Another vibrating toy that can add a little bounce to your bouncing is a cock ring. The [Duet Cock Ring](#) has two separate vibrators, one that goes against your testicles and another that buzzes against her clitoris. Cock rings also work by trapping blood flow in the penis leading to a stronger, longer-lasting erection and, therefore, longer sessions in the sack. Just be careful to follow the instructions and not wear it too long or you could cause damage to your most precious member.

Wedge

If you want to penetrate even deeper, the [Liberator Wedge](#) will allow you to truly plumb the depths of your lady. The wedge hoists her hips up while you're in the missionary position so you can hit her G-spot and go even further. On the flip side, the wedge makes it easier for her to keep herself propped up during doggy style. Lying over the wedge, you can enter her from behind while she uses the wedge as support. Less strain on her wrists and knees means you can go for even longer. However, the wedge isn't just for spicing up penetration; it works great for oral sex as well. Easier access means you can explore her in ways she's never felt before. No need to worry about dried-up bodily fluids; the cover comes off and is totally machine washable.
